

Raj Mahajan

Software Test Engineer | QA Automation | MERN Developer

+91 7898844853 | Pune, Maharashtra | mvraj7898@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Software Test Engineer and **MERN Stack Developer** with hands-on experience in manual testing and automation testing at Callybre. Skilled in **Java, Selenium WebDriver, TestNG, Cucumber, Postman and Playwright**, with additional experience in React.js, Node.js, and Express.js. Strong attention to detail and analytical problem-solving skills, with experience identifying functional defects, UI inconsistencies, edge cases, and anomalies. Experienced in building and testing full-stack applications, including Print-ATM and a Digital Contract Farming platform selected for **₹5 Lakh seed funding**.

Professional Experience

Software Test Engineer Intern — at Callybre

April-2026 - Present

Key Skills: Selenium WebDriver, TestNG, Postman, Page Object Model (POM), XPath

- Performed manual and automation testing of web applications using Selenium WebDriver, Java, and TestNG.
- Designed and executed test scenarios, test cases, positive/negative test cases.
- Performed Functional, Smoke, Sanity, Regression, Retesting, Integration, End-to-End and Cross browser testing.
- Identified, documented, and tracked 50+ defects/bugs using Jira, including defect reproduction, severity, priority, and retesting after fixes.

Education

Bachelor of Technology – Computer Science and Engineering

2022–2026

Sagar Institute of Science and Technology, Bhopal

CGPA: 7.52

Technical Skills

- | | |
|----------------------|---|
| • Testing & QA | Selenium, TestNG, Cucumber, API Testing, Postman, Playwright |
| • Programming | Core Java, JavaScript, typescript |
| • Frontend / Backend | HTML5, CSS3, React.js, Node.js, Express.js |
| • Databases | MongoDB, MySQL |
| • Tools & Platforms | Git, GitHub, Jira, Claude CLI, Basic MS Excel |

Projects

Printer Automation for Business | [Live Link](#)

Key Skills: React, JavaScript, CSS, Express.js, MongoDB, AWS S3, BDD, Gherkin

- Automated the printing workflow, reducing manual printing effort by up to 80%.
- Validated critical application workflows through functional, integration and API validation testing, including file uploads, PDF processing, pricing calculations, queue management, and print-job execution.

Digital Contract Farming | [GitHub Link](#)

Key Skills: React.js, Node, Express, HTML5, CSS3, Figma, UI/UX Design

- Built a marketplace connecting farmers with contractors and organizations through digital contract workflows.
- Performed functional, API, UI, and integration testing of key workflows and validated application behaviour across frontend and backend components.

E-commerce Website | [Live Link](#)

- Built reusable frontend components and responsive UI with a focus on maintainable application structure.
- Performed API Testing and validation using Postman, including request/response and HTTP status-code validation.
- Performed Database Testing and backend data validation using SQL/MySQL.
- Conducted Exploratory testing, UI testing and End-to-End Testing to identify defects and unexpected behaviour.

Achievements

- Project selected for **Seed Funding — ₹5 Lakh**.
- Winner, Yukti Innovation 2.0 — Best innovative idea.
- Winner, Sagar Oral Olympics — Graphics Designing & Motion Graphics.
