Indrapuri, bhopal, India

BRIEF SUMMARY

Web Developer with hands-on experience in building scalable full-stack applications using the MERN stack(MongoDB,Express.js,React,Node.js). Skilled in creating responsive and user-friendly interfaces, integrating robust backend services, and delivering optimized solutions for performance, reliability and scalability. Experienced in working with modern web technologies and APIs.

EDUCATION & CERTIFICATIONS

Bachelor of Technology in Computer Science

Sagar Institute of Science & Technology

Higher Secondary Education

Shripati International Public School Ganapur, Moryahun, Jaunpur

Secondary Education

Janta Janardan Inter College, Jaunpur

KEY COMPETENCIES

Programming & Frameworks: Java, C++, Python, React.js, Node.js

Web Development: HTML, CSS, JavaScript

Databases: MongoDB

Core Concepts: Data Structures & Algorithms

Design: Figma

PROJECTS

1) Digital Krishi – Contract Farming Platform (MERN Stack, Node.js, MongoDB)

- Built a web-based contract farming platform to connect farmers and buyers digitally.
- Implemented farmer registration, land lease management, and contract creation modules using the MERN Stack .
- Integrated MongoDB for secure storage of user, land, and contract data with scalable backend APIs in Node.js
- Designed a responsive React frontend to provide farmers with an easy-to-use dashboard for managing contracts.

2) Social Media Platform (ReactJS, Node.js, Express.js, MongoDB, JWT, Bootstrap, HTML)

- Developed a full-stack social media web application that enables users to register, create, post, and engage with content in real time.
- Implemented secure user authentication using JWT and Bcrypt for password encryption.
- Built RESTful APIs for post management, likes, and comments with Express.js and MongoDB.
- Designed a responsive and dynamic user interface using React.js and Bootstrap for a seamless experience across devices.
